

# Total Method Process Explained

## Primary Recruitment Term

1. The total specialist selects the total setting method and communicates it to the College Panhellenic.

2. The RFM specialist (or total specialist) calculates total after bid matching using the method.

NOTE: Bid matching includes the offering of snap bids. Snap bidding may take place up until the distribution of bids/start of Bid Day.

3. The College Panhellenic shares what number total is with the chapters immediately following the conclusion of bid matching.

NOTE: The College Panhellenic should not communicate the total method prior to the calculation of the total number.

4. Chapters may begin continuous open bidding.

# Total Method Process Explained

## Non-primary Recruitment Term

1. The total specialist selects the total setting method.

2. The total specialist calculates total within 24 hours of the first day of classes for the term and communicates it to the College Panhellenic.

3. The College Panhellenic shares what number total is with the chapters IMMEDIATELY.

4. Chapters may begin continuous open bidding.
